Today's Task: Following are task that are performed today

- ✓ Using **STAR Topology** the network LAN connection of all the computers are established by using the switch at the computer Lab in Basement situated at **BVM Kitchlu Nagar** Branch.
 - ✓ I also run the Python Script on every PC of the Computer LAB for remove pre-installed Windows bloatware apps and disable the temporary file that are hide in the PC windows.
 - ✓ Unique IP Addresses are assigned to all the computer and all the IP's are PING also.
 - ✓ CAT 6 (UTP) cable are wired at Computer Lab to server room directly at **BVM Udhampur Singh Nagar** branch.
- These all the task images are display below:
